

Bacharach's doctors of audiology provide comprehensive hearing treatment for patients of every age – from newborns to grandparents. From complete evaluation services to hearing aids and other therapeutic options, the Bacharach team takes full advantage of advanced digital technology for both diagnosis and treatment.

We're proud to say our patients and their families consistently praise the Bacharach team for compassionate, personalized care and unmatched technical expertise.

HAVE YOU HEARD?

WE'RE LEADING THE WAY
IN HEARING DISORDERS.

THE HEARING CENTERS AT BACHARACH

bacharach.org • (609) 652-7000

Have trouble hearing people on the phone? Is background noise interfering? Do people seem to mumble? These may be signs that you are suffering hearing loss.

The good news? Bacharach's Hearing Centers are quickly becoming the leaders in the evaluation and treatment of hearing disorders. Led by audiologists who have earned their doctoral degrees, each center can provide a full spectrum of care to seniors, adults and children.

HEARING SERVICES AT BACHARACH

- Comprehensive audiologic evaluation
- Auditory brainstem evoked response testing
- Otoacoustic emissions testing (OAE)
- Custom hearing aids
- State-of-the-art digital technology
- Assistive listening devices
- Central auditory processing evaluations
- Computerized balance testing
- Education and support groups

GETTING TO THE CAUSE OF YOUR PROBLEM

Hearing impairment can spring from a variety of causes, including aging, birth defects, injury or infection. The Bacharach team of licensed, certified audiologists is focused on one thing: improving your quality of life through better hearing.

PEDIATRIC SPECIALISTS

At Bacharach, we realize hearing loss doesn't discriminate because of age. That's why we offer more pediatric hearing services than any other facility in the region. That's good news for families looking to get excellence in hearing care without having to drive hours to find it.

Services include:

- Newborn hearing assessments
- Pediatric hearing aid fitting
- Direct working relationship with child's school system
- On-site speech and language therapy at our main campus

HEARING AID EXPERTS

Today's hearing aids offer a wide range of solutions in thousands of configurations. Bacharach's team applies the diversity of technology to each individual case for the best possible result. By prescribing digital devices with advanced filtering and automatic volume control, the Bacharach team custom-tailors the best choice in hearing aids for each patient. From custom fitting to education, training and follow-up, the Bacharach Hearing Centers deliver complete hearing aid services.

Bacharach's Hearing Centers are hospital-based and not-for-profit. We do not offer coupons or specials because our prices are fair and competitive every day. For those who are interested in financing their instruments, please ask about the Care Credit program.

SOUND TREATMENTS FOR MORE SERIOUS PROBLEMS

The Hearing Centers are also equipped to identify and manage problems associated with the complexities of the inner ear, including vertigo and balance issues. Bacharach's audiologists will work directly with your doctor and the Bacharach Balance Center team.

Continuing education is a key component of services offered, both for patients and their families and caregivers. And the staffs of the Hearing Centers offer techniques in assistive listening – adapting telephones, television, radio and other appliances to better serve those with hearing deficits.

SE HABLA ESPAÑOL!

Bacharach offers special services for Spanish-speaking clients.
