# HEARING SERVICES AT BACHARACH

- Comprehensive audiologic evaluation
- Auditory brainstem evoked response testing
- Otoacoustic emissions testing (OAE)
- Customized digital hearing technology
- Tinnitus evaluation and management
- Assistive listening devices
- Central auditory processing evaluations
- Computerized balance testing
- Education and support groups

## HEARING AID EXPERTS

Today's hearing aids offer a wide range of solutions in thousands of configurations. Bacharach's team applies the diversity of technology to each individual case for the best possible result. By prescribing digital devices with advanced filtering and automatic volume control, the Bacharach team custom-tailors the best choice in hearing aids for each patient. From custom fitting to education, training and follow-up, the Bacharach Hearing Centers deliver complete hearing aid services.

Bacharach's Hearing Centers are hospital-based and not-for-profit. Our prices are fair and competitive every day. For those who are interested in financing their instruments, please ask about the Care Credit program.

- Care Credit 0% financing if qualified

## PEDIATRIC SPECIALISTS

Services include:

- Newborn hearing assessments
- Pediatric hearing aid fitting
- Direct working relationship with child's school system
- Speech and language therapy at our main campus

## SOUND TREATMENTS FOR MORE SERIOUS PROBLEMS

The Hearing Centers are also equipped to identify and manage problems associated with the complexities of the inner ear, including vertigo and balance issues. Bacharach's audiologists will work directly with your doctor and the Bacharach Balance Center team.

Continuing education is a key component of services offered, both for patients and their families and caregivers. And the staffs of the Hearing Centers offer techniques in assistive listening – adapting telephones, television, radio and other appliances to better serve those with hearing deficits.

## STAYING CONNECTED

At Bacharach, our goal is to provide the latest advances in hearing technology and help you experience better connections in life – with people, information and entertainment. We offer a range of devices to help connect your hearing instruments wirelessly to cell phones, landline phones, TV and any Bluetooth audio devices. Hearing aids can actually become personal wireless headsets. Smartphone connectivity can turn your phone into a remote control and personal remote microphone, and has a GPS feature to locate misplaced instruments.
